TEACHER COMMENTS:

Bill can name all the letters and letter sounds, and is ready for kindergarten!

For questions about CLI Engage and its tools, please submit a help ticket on cliengage.org. This assessment tool efficiently and reliably provides a snapshot of your child's learning at a given point in time. The results are NOT a comprehensive, developmental evaluation, and are NOT intended to diagnose children who may have difficulty learning or other delays. Please talk to your child's teacher or an administrator at your child's school if you are concerned about your child's learning and/or development.

Graphs show your child's progress in a learning area over time. Graphs may display when a report includes results from more than one wave.

When one or more of the specific skill areas are not completed, the total score, performance category, and graph do not display.

Your child's performance in a learning area, including the score (out of the total score possible)

Results display without a graph when a report includes scores from only one wave.

Some learning areas are broken down into specific skill areas.

How your child completed the assessment:
 1= in person
 2= remotely
 3= combined

The wave that the score(s) correspond to

Your child's teacher may include comments.
